

## **Ficha técnica de licencia de software para ofimática**

|                                                                                                  |                                                      |
|--------------------------------------------------------------------------------------------------|------------------------------------------------------|
| Indique Nombre Comercial completo del software de Ofimática (si hay más de una licencia lístela) | Microsoft 365 E3 + Teams Enterprise                  |
| Capacidad mínima de Unidad de almacenamiento de archivos (GB)                                    | 1 Tb onedrive<br>Sharepoint 1 tb + 10 gb por usuario |
| Capacidad mínima de Unidad de almacenamiento de correos (GB)                                     | 100 Gb                                               |
| ¿Requiere licencia CAL? (*)                                                                      | no                                                   |
| Límite de Usuarios                                                                               | Sin limites                                          |
| Informes y Auditoría Web                                                                         | si                                                   |
| Antiphishing y Antispam                                                                          | si                                                   |

(\*) Si es necesario una licencia adicional(CAL) esta debe estar incluida en el precio

1. Herramientas de Ofimática incluidas: Si
2. Seguridad Estándar y herramienta de administración estándar: si
3. Seguridad Avanzada y herramientas de administración móviles : si
  - a. Azure Information Protection Plan 1
  - b. Manual, default, and mandatory sensitivity labeling in Microsoft 365 apps
  - c. Sensitivity labeling for containers in Microsoft 365
  - d. Basic Message Encryption
  - e. Personal Data Encryption
  - f. Windows Information Protection
4. DLP: Si DLP for emails & files
5. Identidad Avanzada : si
  - a. Microsoft Entra ID1 Plan 1
  - b. User Provisioning
  - c. Cloud user self-service password change
  - d. Cloud user self-service password reset
  - e. Hybrid user self-service password change/reset with on-premises write-back
  - f. Advanced Security Reports
  - g. Multi Factor Authentication
  - h. Conditional Access
  - i. Microsoft 365 Groups
  - j. Single sign-on (SSO)
  - k. DirectAccess supported
  - l. Windows Hello for Business
  - m. Microsoft Advanced Threat Analytics
6. Informes y Auditoría móvil : si
  - a. Microsoft Intune Plan 1
  - b. Mobile Device Management
  - c. Mobile application management
  - d. Windows Autopilot
  - e. Group Policy support for Windows
  - f. Group Policy support for Microsoft 365 apps

- g. Cloud Policy service for Microsoft 365
- h. Shared computer activation for Microsoft 365 apps
- i. Endpoint Analytics
- 7. Requisitos de instalación y/o uso
  - a. Provisionamiento en Tenant de Microsoft 365
- 8. Otra información relevante del producto:
  - a. Licencias Microsoft 365 tiene la ventaja de incluir sistemas de seguridad en el mismo plan. Ver descripción completa en siguiente hoja
